Our Online Pre-filing Process

From trademark name availability search to legal certificates we follow a complete online process. No paper works. It takes a lot of manual work and time with typical paperwork. We have identified our clients pain points and done our research for 20+ years and now we have a dedicated software developed by our own company specifically to reduce the time and work in the pre-filing process. Soon as our client updates their info we provide a permanent link where every stage of trademark registration process is updated.

This transparent method avoids any certain misleading interpretation and allows the client to completely be informed at any given moment from the date of the service. We give easy to access with privacy and protection to the updated information to the client. Perfection is our priority and we give no space for mistakes. This allows us to file more than 100+ trademark per day which needs little to no attention from a human and is completely automated. Any changes are updated and is sent as a message to the clients phone number. Our futuristic approach will be the benchmark for upcoming companies.
