TRADEMARK REGISTRATION PROCESS & FEE STRUCTURE

Trademark Registration Process

Step 1 – Trademark Availability Search
We conduct a preliminary trademark search to identify identical or similar trademarks and assess the availability of your proposed brand name or logo.

Step 2 – Application Filing
After reviewing the availability and receiving the required documents, we prepare and file the trademark application with the Indian Trademark Registry.

Step 3 – Examination by Trademark Registry
The Trademark Registry examines the application based on applicable provisions of the Trade Marks Act, 1999. If an examination objection is raised, we assist in preparing and filing the response.

Step 4 – Trademark Journal Publication
If the application is accepted, the trademark is published in the Trademark Journal for a period of four months, during which third parties may file an opposition.

Step 5 – Registration Certificate
If no opposition is filed, or if opposition proceedings are successfully resolved, the trademark may proceed to registration, subject to the Registry's approval.

Step 6 – Trademark Protection
Once registered, the trademark is protected for 10 years from the date of application and may be renewed every 10 years.
